Summary

I am a passionate Quality Assurance Engineer with 2 year of experience in software testing. I have hands-on experience in manual testing for both web and mobile applications, as well as automation testing for web applications using tools like Selenium and Katalon Studio. Skilled in designing and executing test cases, debugging, and ensuring optimal application performance, I am eager to apply my knowledge and practical experience to deliver high-quality, user-friendly software solutions. A fast learner and detail-oriented professional, I thrive in collaborative environments that encourage innovation and continuous improvement.
